Dear Kent:

The following Preliminary Assessments (PAs) are complete and will be considered final with the receipt of a new cover sheet to the PA with the "final" date typed at the top.

- ✓ 1. Amoco Oil Company - Salt Lake Refinery - UTD000826362
- ✓ 2. Hugo's Auto Salvage - UTD980960090
- ✓ 3. Old Dump/Fill Site at Sunnyside & 1400 East - UTD980959746
- ✓ 4. Uintah Drums - UTD981542145
- ✓ 5. Wasatch Storage - UTD981549082

Under the Multi-Site Cooperative Agreement (MSCA), the State has committed to completing 30 PAs for FY-87. With the finalization of two of the PAs listed above, the State will have met its target of 30 PAs for FY-87. Under the MSCA, the State has committed to completing an additional 30 PAs for FY-88. The finalization of the other three PAs listed above will be credited to the State's commitment for FY-88. EPA recognizes that the target of 30 PAs for FY-88 may not be possible, since the number of sites on CERCLIS needing a PA are less than 30.

EPA concurs with the State's recommendations for 'no further action' at any of these sites, based on existing conditions.
